*What are you doing, asks Vivian.
I'm looking for my voice, says Vince.
Can I help you? asks Vivian.
OK, says Vince*

*They look in, behind, under and next to all different objects.
Until Vince makes a special discovery when he is joking
with a bucket over his head.
Vivian roars with laughter!*

'Vince Finds His Voice' is a jolly musical picture book which includes a CD. It is read by a native English speaker and sung by Noortje Herlaar, a Dutch musical star.

The **CD** contains the Dutch and the English version of the story and the songs. This book is recommended to parents and kindergarden teachers and to schools where they teach English as a second language to their young students.

Do more with your voice and music.

You can't see or touch your voice, so how can you discover it? In 'Vince Finds His Voice' young children discover in a playful manner and with lots of fun how their own voice can sound. With the 4 jolly songs on the included CD children can discover their singing voice as well. These new songs encourage children to be creative with music. The picture book and the CD combine singing with reading and being read to.

The pictures in the book are real paintings done by the artist Monique Michel. There is lots to discover in them! In the back of the picture book is a practical part for the adults, with challenging ideas for musical activities at home, at kindergarden and at school.
